

The Australian National Immunisation Program (NIP) outlines a series of government funded immunisations given at specific times throughout your life. In addition, vaccines for other diseases that are not funded may be recommended in the Australian Immunisation Handbook (a resource developed by a government body to provide advice to healthcare professionals).^{1,2}

Please speak with a healthcare professional for more information in relation to any of the diseases below.

All Adults: There may be a number of circumstances throughout adulthood that may put you be at an increased risk of certain diseases (e.g lifestyle/occupational risks, medical conditions) it is important to speak to a healthcare professional regarding your individual circumstances

 Immunisation funded via the National Immunisation Program for certain individuals

 Immunisation **may** be recommended in the Australian Immunisation Handbook but is not funded
